Apple Media Services:

Social and Connect Post Information - Profile

April 2019

File name Social and Connect Post Information-profile.csv

File description This contains profile data related to the user's own Apple Music profile.

Why Apple keeps this information This data is primarily held for debugging purposes.

Field Name	Details
profile_set_up	When enabling new features related to sharing music with friends, this field is used to determine whether a profile was set up before or after a new feature is enabled. This determination allows Music to prepare the profile for the new feature if needed.
